**Notice of Privacy Practices**

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

Pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), you have a right to adequate notice of the uses and disclosures of your protected health information ("PHI") (i.e., information that discloses your identity or leads to disclosure of your identity) that may be made by this medical practice. You are also entitled to notice of your rights and the duties of this practice with respect to your personal health information.

**Required by Law**

Our practice has the following duties with respect to your personal health information:

1. We are required by law to maintain the privacy of your personal health information.
2. We must provide you with notice of our legal duties and privacy practices with respect to personal health information.
3. We must abide by the terms of the notice of privacy practices that is currently in effect.

**How We May Use and Disclose Your Information**

The following describes how our practice is permitted by law to share your personal health information with others in order to provide you with medical care. This notice does not describe every use or disclosure our practice makes; it is intended as a general overview.

*Medical Treatment.* We may need to share information about you in order to provide medical care to you. For example, we may share information with other physicians, nurses or healthcare professionals entering information into your medical records relating to your medical care and treatment. We may share information about you including x-rays, prescriptions and requests for lab work.

*Payment.* We may need to disclose information about the treatment, procedures or care our practice provided to you in order to bill and receive payment for services we provided. We may share this information with you, an insurance company or any third party responsible for payment. We may also need to disclose personal health information about you with your health plan and/or referring physician in order to obtain prior authorization for treatment, to determine whether payment for the treatment is covered by your plan or to facilitate payment of a referring physician.

*Healthcare Operations.* In order to help us run our practice more efficiently and provide better patient care, we may use and disclose your personal health information to Business Associates who need to use or disclose your information to provide a service for our medical practice, such as our billing company or software vendors who provide assistance with data management on our behalf. *[Provide additional examples appropriate to your practice].*

We will only make this disclosure if you agree to the disclosure or we are required or authorized to do so by law without your permission. *Appointment Reminders or Treatment Alternatives.* Our practice may use and disclose medical information about you to provide you with reminders that you are due for care or you have an upcoming appointment. We may also wish to provide you with information on treatment alternatives or other health related benefits that may be of interest to you. We may contact you by phone, fax or e-mail. We will make every effort to protect your privacy when leaving a message for you and try to reveal as little confidential information as possible (e.g., when leaving a message on your answering machine that may be heard by others). *Research.* Under certain circumstances, our practice may use or disclose your personal health information for research purposes. Our practice cannot use or disclose information about you without your written authorization, but we may if the authorization requirement has been waived by a Review Board who has assessed the effect of the research protocol on your privacy rights and interests and certified that there are adequate controls in place to protect your information from improper use and disclosure. Our practice may also disclose information about you in preparing to conduct research (e.g., to help them find patients who may be qualified to participate in a particular study), but your information will not leave our practice. We will make all attempts to make your information non-identifiable, but we may not always be able to guarantee this. If however, the researcher will have access to information that will identify you, we will seek to obtain your permission (though we cannot guarantee this). We will always obtain your specific authorization if required by law.
